

Newstead Terraces News

Sept 2018.

COMMON AREA DECK WORK

Work is nearly completed on the new deck and it's looking fantastic! We appreciate that it has been difficult to access the Gym and BBQ area in this time, and that there has been some noise and disturbance to the complex whilst the work is being completed. Thank you for your patience and tolerance whilst this beautification work continues.

BUILDING WIDE WASH DOWN – INACCESSIBLE WINDOWS & AWNINGS 24TH SEPT START

Thanks everyone for your co-operation in giving the window washing team access to work their magic. A team of four abseilers (including one very young lady) swung across our building face.

DEFIBRILLATOR AVAILABLE AT ON-SITE OFFICE

Thanks to the generosity of Mark (U18) Newstead Terraces has its own Defibrillator. The machine is currently housed in the on-site office, but it may be better placed in the gym where all residents could access it urgently at all hours. The machine is second hand, and will be ineffective when the onboard battery dies (the word OK appears in a digital print on the yellow handle as long as the battery is alive), but should be good for another two years or so. A full set of instructions are inside the pack, anyone would be able to use it following those included steps.

BABY MOTORCADE

Great to see the lovely mums and bubs (and dogs!) of Newstead Terraces out enjoying the beautiful spring sunshine together. It's always a pleasure to see our community out enjoying the facilities and each other's company.
